Financial Figures

The financial figures used in this report are those used in the Japanese *tanshin*, which has been created in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act. Thus, all figures have been rounded down to the nearest million yen.

Forward-Looking Statements

This report contains forward-looking statements based on management's assumptions and beliefs in light of the information then available. These statements are subject to risks and uncertainties that could cause actual results to differ materially from those discussed in this report. Such risks include, but are not limited to, market trends, economic conditions and changes in industry regulations.

To Our Stakeholders

The following is a brief summary of business operations during the fiscal year ended March 31, 2020.

In 2020, the worldwide spread of the COVID-19 novel coronavirus, which no one could have foreseen as the new year began, has caused major disruptions and created a sense of crisis. We at TBS have been similarly affected. However, no matter what the situation, we remain committed to fulfilling our mission as a broadcast media group and as a news and information provider. Accurate information is essential for the public to respond to the virus with the necessary amount of caution. This period has served as a keen reminder to us that the public service role is a major pillar of our operations.

In the Media & Content business segment the video streaming business performed well, with healthy increases in membership at both TVer, the official commercial TV portal site that operates free streaming based on advertising revenue, and at Paravi, a video streaming app based on a paid subscription. With the dramatic growth in video streaming content, TBS has established a prime competitive position. This was illustrated by the figures from TVer for the month of January, when TBS substantially surpassed the previous record for the number of views in a monthly period for every broadcast station. A large contribution to this success in January cours (three-month unit of broadcasting) was made by the drama series *An*

Incurable Case of Love, broadcast in the Tuesday evening slot, and Sunday evening's Ship of Theseus, both major hits via streaming as well as terrestrial broadcasting. Despite repeated claims that this generation is moving away from television watching, it is especially among the young that we are sensing success in attracting new viewers.

And now an important announcement for our stakeholders: To adapt to a changing world and emerge with a fresh identity, in April 2020 we adopted a new corporate philosophy and brand promise. Among the commitments we make are to open up not just for Japan but the whole world, to offer a wide range of services in addition to content, and to provide customers with entertaining and inspiring experiences in their everyday lives.

For the future, we look forward to continuing to grow as a comprehensive media group.

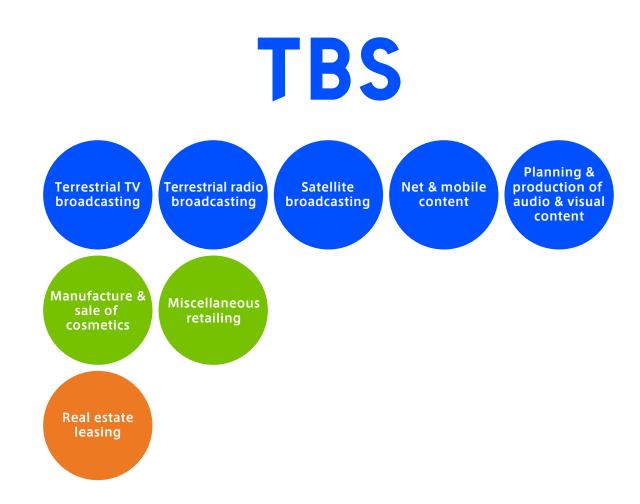

June 2020

Takashi Sasaki

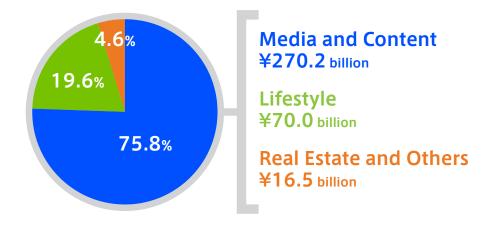

President and Representative Director Tokyo Broadcasting System Holdings, Inc.

Our Business

The Group covers a wide range of businesses, primarily broadcasting. We aim to become the best media group that provides the most powerful content and software in the areas of information, entertainment, lifestyle, and culture.

From April 1, 2019 to March 31, 2020

The Current Position of Tokyo Broadcasting System Holdings, Inc. and Its Subsidiaries

1 Business Activities and Results

During the consolidated fiscal year under review, Japan's economy continued on a path of modest recovery, with improvements seen in the employment and income environments. However, in addition to the impact of overseas economic trends such as the tension over trade issues and fluctuations in financial and capital markets, the recent pandemic of the novel coronavirus disease (COVID-19) has had a major impact on the domestic and international economies. As a result, the situation rapidly turned severe and the future outlook remains uncertain.

In this environment, according to 2019

Advertising Expenditures in Japan (published by Dentsu Inc.), total advertising expenditures in Japan were ¥6,938.1 billion (up 6.2% year-on-year), marking the eighth consecutive year of positive growth. Of this, terrestrial television advertising expenditures were ¥1,734.5 billion (down 2.8% year-on-year), satellite media-related advertising expenditures were ¥126.7 billion (down 0.6% year-on-year), and radio advertising expenditures were ¥126.0 billion (down 1.4% year-on-year). Internet advertising expenditures exceeded ¥2 trillion, surpassing television media advertising expenditures for the first time.

In the TV advertising market, spot advertising spending in the Kanto area was 93.5% of the previous year's total, a very challenging situation.

Against this backdrop, consolidated net sales of the Group for the fiscal year ended March 31, 2020 decreased 2.6% from the previous fiscal year to ¥356,796 million. This was mainly due to a decrease in spot revenue, which was caused by a drop in volume in the Kanto region, a decrease in concerts and stage performances revenue following the spread of COVID-19, and a decline in time revenue.

Operating expenses (i.e. cost of sales and selling, general and administrative expenses) decreased 1.2% from the previous fiscal year to ¥343,692

million, mainly due to a reactionary decrease in production cost and broadcasting rights fees related to large-scale one-off sports events in the previous year.

As a result, operating income decreased 29.4% from the previous fiscal year to ¥13,103 million, while ordinary income decreased 26.2% to ¥21,274 million, mainly due to decreased dividend income, and profit attributable to owners of parent increased 19.7% to ¥30,174 million, mainly due to the posting of a gain on sales of investment securities as extraordinary income.

At the meeting of the Board of Directors held on May 14, 2019, the Company resolved to change the segment classification.

The Broadcasting, Multi Visual Ventures and Cultural Events, and Real Estate segments in the previous fiscal year were changed to the Media & Content, Lifestyle, and Real Estate & Other segments in the fiscal year under review. The figures for the reportable segments in the previous fiscal year have been prepared based on the segments after the change.

In the Media & Content business segment, net sales for the fiscal year under review were ¥270,265 million (down 2.8% year-on-year) and operating profit was ¥2,409 million (down 69.5% year-on-year).

Net sales in the Television division of Tokyo Broadcasting System Television, Inc. for the fiscal year under review decreased ¥4,106 million to

IAAF World Athletics Championships Doha 2019 © Photo Kishimoto

From April 1, 2019 to March 31, 2020

¥182,083 million (down 2.2% year-on-year). Of this total, time advertising was ¥87,230 million (down 0.8% year-on-year), spot was ¥79,275 million (down 5.2% year-on-year), and content revenue (including advertising revenue earned through domestic broadcast syndication and free video streaming) was ¥10,892 million (up 0.6%). In terms of time revenues, regular programs were strong and one-off sales such as the IAAF World Championships Doha 2019 contributed. However, this was not enough to match revenues from the previous year's Asian Games 2018 in Jakarta and 2018 FIFA World Cup Russia. In spot sales, while advertisers' investments in the Kanto region remained sluggish throughout the year, down 6.5% year-on-year, the market share of five stations increased 0.2 percentage points year-on-year to 19.3%, but was below the previous year's level. Content revenue increased from the previous year, which had the World Cup advertising, due to a rise in demand for free video streaming and other factors.

Income from operations of Tokyo Broadcasting System Television, Inc. for the fiscal year under review decreased ¥2,926 million to ¥25,304 million (down 10.4% year-on-year).

For events, *The Habsburg Dynasty: 600 Years of Imperial Collections* at the National Museum of Western Art in October drew more than 395,000 visitors, and a special exhibition *Mummies of the World: In Search of Eternal Life* at the National Museum of Nature and Science in November drew more than 460,000 visitors. For concerts and stage performances, *BOUM! BOUM! BOUM! Shingo Katori NIPPON First Exhibition* at IHI Stage Around Tokyo, Asia's first 360-degree revolving theater, resulted in a sound performance. However, overall events and

WBSC Premier12

concerts and stage performances revenues were down due to a decline from the previous year's *Seven Souls in the Skull Castle* series and *Stars on Ice 2018* and the cancellation of performances due to the spread of COVID-19. In the film business, sales decreased due to a lower number of new titles from the previous year and a decrease in the number of visitors since February, despite the blockbuster release of the movie *Kaguya-sama: Love Is War* (starring Sho Hirano, Kanna Hashimoto and others, and directed by Hayato Kawai) in September.

In the media business segment, revenue from video streaming and video content businesses increased due to steady performance, but revenue from businesses targeting overseas markets declined due to struggling broadcast syndication in China and other Asian markets, as well as poor commercialization in the licensing business.

Net sales of BS-TBS, INC. for the fiscal year under review increased ¥450 million to ¥16,849 million (up 2.7% year-on-year), thanks to growth in time regulars and solid sales of shopping programs.

Net sales of TBS Radio Inc. for the fiscal year under review decreased ¥217 million to ¥9,567 million (down 2.2% year-on-year) in the midst of a difficult radio advertising market.

In terms of expenses, operating income in this segment decreased ¥5,481 million to ¥2,409 million (down 69.5% year-on-year), despite a decline in production costs and broadcasting rights

Mummies of the World

From April 1, 2019 to March 31, 2020

fees for large-scale one-off sports events in the previous year.

In the Lifestyle business segment, net sales for the fiscal year under review were $\pm 70,007$ million (down 2.6% year-on-year), and operating profit was $\pm 2,751$ million (down 5.0% year-on-year).

PlazaStyle Company, a core retailing business of StylingLife Holdings Inc., saw strong sales of cosmetics and other products, but sales of sundries and clothing were weak due in part to the warm winter. BCL Company, a division of the cosmetics business, struggled to sell its products overseas, particularly in China and other Asian regions. In addition, a decline in consumption after the consumption tax hike and, most recently, the impact of the spread of COVID-19 on sales activities were serious, resulting in decreased sales and profit.

In the Real Estate and Others business segment, net sales for the fiscal year under review were ¥16,523 million (up 1.6% year-on-year), and operating income was ¥7,942 million (up 2.0% year-on-year).

Sales rose due to occupancy of Akasaka Biz Tower which continued to remain high and earnings from The Hexagon building, which is adjacent to the Company's building, were added from the previous fiscal year. Operating profit increased despite an increase in expenses such as repairs and maintenance.

The Hexagon building

(2) Capital Expenditures

Total capital expenditures in the fiscal year under review was ¥18.8 billion.

Capital expenditures consists of ¥7,500 million for the Company, ¥7,900 million in Tokyo Broadcasting System Television, Inc., ¥1,000 million in the StylingLife Group.

The Company's major capital expenditures were related to planning for the Akasaka Entertainment City Initiative and upgrading of the Akasaka Biz Tower common gates. Major capital investments for Tokyo Broadcasting System Television, Inc. included the upgrading of emergency power generation systems and high-voltage power supply equipment at Midoriyama Studio, and a subrenewal of D Studio. Major capital investments for the StylingLife Group were made for PLAZA store renovations and investments in IT systems.

3 Capital Procurement

Total interest-bearing debt of the Group at the end of the fiscal year under review was ¥1,800 million in long-term borrowings (including the current portion and excluding lease obligations).

To ensure flexible access to operating capital, as of the end of the fiscal year under review, StylingLife Holdings Inc., a consolidated subsidiary of the Company, had established a commitment line agreement totaling ¥3 billion with Sumitomo Mitsui Banking Corporation. (The balance of the funds drawn is zero and the available balance is ¥3 billion.)

Aside from the above, with the aim of streamlining funding some account receivables are in the process of being liquidated.

4 Status of Important Reorganization

To review the structure of the Group and focus the strengths of the Group, based on the Group Medium-Term Management Plan 2020, on April 1, 2019 the Company made TBS GLOWDIA, Inc. a subsidiary. Seven other companies, including five consolidated subsidiaries (TBS

From April 1, 2019 to March 31, 2020

ProNex, Inc., Vecte, Inc., TBS Service, Inc., Grand Marche, Inc., TBS TriMedia, Inc.) and two whollyowned subsidiaries, disappeared during absorption mergers.

5 Priorities

The business environment surrounding the Group is undergoing significant changes. The spread of COVID-19, which began in January this year, has had a major impact on economic activities, and the degree of impact on the future advertising market is also unclear, given the growing forecast that the growth of the domestic economy will turn negative.

On the other hand, the media viewing environment is diversifying, with the increasing sophistication of devices making it easier to enjoy video content on smartphones and tablets on a daily basis. According to 2019 Advertising Expenditures in Japan, Internet advertising has surpassed television media advertising for the first time.

In the area of video streaming, the competition for users has intensified as international platform giants are increasing their presence in the Japanese market, and NHK is constantly conducting live streaming. One of our major challenges is how to increase the number of internet touchpoints and to monetize them.

Under these circumstances, we rewrote our Group corporate philosophy in April this year.

The new corporate philosophy is as follows.

"The TBS Group aims to deliver timeless content and services to the world, respecting diverse values and striving to make a positive contribution to society."

In realizing this philosophy, we also established the Brand Promise, an important commitment to our customers and an aspiration for the future that all members of the Group must always keep in mind:

"From each moment, a better tomorrow."

Our Group aims to create entertaining and inspiring experiences that move hearts and minds. This promise embodies our determination towards that future.

The Corporate Philosophy and Brand Promise are

guides for all our management activities, as we strive to provide fair and speedy reporting and content that is loved, while taking on new challenges.

In this endeavor, we have been making Group-wide efforts to achieve the Group Medium-Term Management Plan 2020 covering FY2018 to FY2020.

Priorities under the Group Medium-Term Management Plan 2020 and major initiatives in FY2019 are:

- (1) Increase the competitiveness of Tokyo Broadcasting System Television
- (2) Diversify and respond to the challenges in total media to create synergies for TBS
- (3) Undertake the social responsibility that the TBS Group should fulfill

For Priority (1) Increase the competitiveness of Tokyo Broadcasting System Television, the household audience ratings for FY2019 went down slightly year-on-year. However, we named the male-and-female viewer tier between the ages of 13 and 59 as our Family Core. Beginning in FY2019, we have made improvements to increase the number of shows that can be watched by families with the aim of increasing the individual audience ratings in this tier as a production indicator. As a result, we have proved popular with many Family Core viewers, especially for dramas and variety shows. Particularly in dramas, many hit tiles were released, including *Ship of Theseus*, *An Incurable* Case of Love, La Grande Maison Tokyo and No Side Manager.

In addition, through our news media activities, we have strengthened the system for distributing news reports 24 hours a day, 365 days a year by promoting the integrated operation of terrestrial broadcasting and digital media, with the emphasis on the real-time nature of news and providing accurate information. In reporting on COVID-19, we have established a special reporting structure and have been providing information continuously to ensure that the public has accurate information, is suitably alerted and responds to the coronavirus correctly. Furthermore, the Company has actively employed digital tools, sending out daily reports of press conferences and commentary through live

From April 1, 2019 to March 31, 2020

streaming and SNS.

For Priority (2) Diversify and respond to the challenges in total media to create synergies for TBS, we focus on enhancing and monetizing our video streaming services as the key area of our comprehensive media strategy.

The use of a free catch-up (a block of reruns) streaming service is growing as the content lineup is enhanced, and advertising revenue is increasing year by year. TVer, the official commercial TV portal at the core of the service, has a cumulative total of more than 25 million app downloads, and will be upgraded to become an even more widely available service in the future.

Regarding paid video streaming, the number of paid subscriptions for Paravi, a flat-rate all-you-canwatch streaming service, continues to increase. In addition to our serial dramas, the director's cut versions and exclusive spin-off content have contributed significantly to subscriber acquisition. We will continue to further promote our video streaming business in the future.

In December 2019, capital and business alliances were concluded with Uzabase, Inc., the operator of an online business information aggregation site called NewsPicks. In collaboration with the IT company in the fast-growing digital media sector, we aim to co-produce content and jointly develop digital advertising by combining the know-how of both companies.

To expand into new business areas, investments were made in several startups working for content development using AR and VR technologies. This is an area in which the Group can fully demonstrate our video production strengths. In collaboration with these companies, we are working to provide groundbreaking entertainment and commercialize cutting-edge technology.

The Planning of Akasaka Entertainment City Initiative, announced in January 2019, is also making steady progress. Begun in July of the same year, the Akasaka Entertainment City Project Office has examined factors from various angles to create a completely new entertainment center that makes full use of the latest technology.

At the Company, we will continue to make strategic investments for sustainable growth, aiming to be a comprehensive media group that prospers.

With regard to Priority (3) Undertake the social responsibility that TBS Group should fulfill, we acceded to the United Nation's SDG Media Compact to accelerate the promotion of sustainable development goals (SDGs) adopted by the United Nations in 2015. Since January this year, we have been broadcasting the TV series *SDGs to the World of 2030*, mainly on news programs, and in cooperation with JNN affiliates, we have reported on "people tackling common global issues."

In October 2019, TBS Akasaka ACT Theatre and Mynavi Blitz Akasaka were converted to 100% renewable energy. This was the first initiative in the country to use renewable energy for theaters and concert halls. We will continue to accelerate the Group's promotion of sustainability activities and work on various measures to realize a better world.

As a result of these initiatives, in the Group Medium-Term Management Plan consolidated net sales of ¥356.7 billion, consolidated operating profit of ¥13.1 billion, and a ratio of operating profit to net sales of 3.7% were achieved in the fiscal year under review. These figures compared favorably with the forecast targets for FY2020 of ¥400.0 billion in consolidated net sales, ¥25.0 billion in consolidated operating profit, and a ratio of operating profit to net sales of 6.3%.

We will continue to respond swiftly to the changes of the times and evolve into a media group that is always loved and trusted by our customers, while at the same time striving to further enhance our corporate value and meet the expectations of our shareholders.

(Ranked in order of sales)

TBS Television Business Segment Income

(Millions of yen)

Segment		Full year	y/y change	Remarks	
Operations	Show / events business		¥ 7,342	-1,972	Revenue from theaters decreased dramatically due to increased cancellation of shows and events from the impact of the COVID-19 coronavirus. The exhibition <i>Mummies of the World</i> , held at the National Museum of Nature and Science, Tokyo, had over 460,000 visitors, a historical high since its opening as the autumn/winter exhibition.
bureau	Movies and	Movies	1,641	-250	Kaguya-sama: Love Is War, which was released in September 2019, was a smash hit and DVD sales were also solid. However, revenue decreased because the number of released movies fell by 50% compared with last year.
	Animations business	Animations	904	+158	Revenue increased partially thanks to solid DVD sales of <i>The Quintessential Quintuplets</i> and <i>The Demon Girl Next Door</i> .
	Media business		11,002	+464	Regarding on-demand, revenue increased from the Paravi-related business because of strong sales from <i>An Incurable Case of Love</i> and <i>Ship of Theseus</i> . On the CS business front, revenue from the TBS Channel increased thanks to prime content, such as <i>BTS</i> .
Content business	Overseas business		2,528	-590	Revenue decreased reflecting difficulties in content sales to China and other Asian countries and weak sales of formats.
bureau	Licensing business		1,289	-320	Although some projects such as sales of goods for <i>An Incurable Case of Love</i> were strong, revenue decreased reflecting weak overall sales in the product commercialization business.
	Extended field business		595	-415	Revenue declined due to the transfer of program-related businesses to other departments.
Total		¥25,304	-2,926
